

THE ZORBIT'S MATH

DAILY

JANUARY EDITION

MON

17

Create your own unit of measurement and give it a silly name (e.g. "my thumb is 2 Cazoodles long"). Use it to measure 5 things.

TUE

18

Create a sequence of movements and sounds and have someone repeat and add to it. Keep going until someone breaks the pattern.

WED

19

Take your pulse or the pulse of someone in your house. How many times does it beat in 15 seconds? 1 min? 1 hour? 1 day?

THU

20

Each day has 24 hours. Make a schedule showing how you can use the next 24 hours.

FRI

21

How many triangles can you find in 3 minutes? Challenge someone to find more.

24

Estimate how many "E"s are on a single page of your favourite book. Count them to check. Estimate how many are in the entire book.

25

Design an obstacle course with 10 stations. Design it such that you do 1 of something at the 1st station, 2 at the 2nd, 3 at the 3rd and so on.

26

Play with your food! Sort them by an attribute or by forming them into a shape.

27

Set a timer for one minute. How many jumping jacks can you do? Who can do the most in your house?

28

Roll a pair of dice 50 times and record the results. Which number(s) came up the most? Why do you think that is?

EXTRA! EXTRA! READ ALL ABOUT IT! MATH CHALLENGES DESIGNED TO FIT INTO YOUR DAILY ROUTINE.
